Subject: NE Denver Settlement Agreement
Attachments: Final Executed Settlement Agreement 12-31-18.pdf

Jennifer and Jesse,

See that attached agreement between the NE Denver community and CDOT.

While Earthjustice was looking for a way to essentially block the I70 reconstruction, and did not achieve that, they did receive significant benefits as that work moves forward. Most significant is a \$500,000 grant to perform a health assessment study.

In conversations with Earthjustice, I have been asked to look about for a potential member to sit on the Planning Committee.

I have reached out to ATSDR to begin that conversation.

Stay tuned.

Regards,

Michael
